

THE CAMPGROUND

[illustration]

DEFENSE

Civilian Recruits

The civilians here step up to defend their home. Defense rolls at this location are made with one extra die.

RECOVERY

It's a Trap!

Gain one ambush token. As an action, any ranger may spend this token to move any wave token one segment in any direction.

"You've developed a special relationship with one of the residents who stays at the campground. Who is it and why are they important to you?"

THE BOATHOUSE

[illustration]

DEFENSE

Water Routes

The waterways are your secret highway. Rangers may move from this location along the water to any connected point as if it were a trail.

RECOVERY

Getaway Vehicle

Gain one boat token. Any ranger may spend this token to enter the water and move along it to any connected point as if it were a trail.

"You used to love being on the water, but something happened and now it evokes bitter memories. What ruined it for you?"

THE FIRETOWER

[illustration]

DEFENSE

A Clear Route

From up here, you can spot safe passages through enemy lines. As long as this location is manned, any ranger may move through wave-controlled roads as a risky action.

RECOVERY

Advanced Intel

Your vantage point reveals exactly how they're approaching. At the start of the next wave, the rangers choose where all wave tokens spawn.

"You're always a little nervous when you're up here on watch duty. It's not about the height, it's something else. What is it?"

THE DAM

[illustration]

DEFENSE

Narrow Spillway

The wave struggles to cross the narrow bridge path. When the wave assaults this location, they take +1 momentum damage, even on failed defense rolls.

RECOVERY

Controlled Release

Gain one flood token. As an action, any ranger may spend this token to flood a road segment, making it impassable for 1 turn. Wave tokens on that road take 2 momentum damage.

"On night patrols you go out of your way to avoid walking across the Dam. Something about it gives you the creeps. What are you afraid of?"

THE FORTRESS

[illustration]

DEFENSE

Fortified Location

These walls were built to last. Defense rolls at this location get +1 to the result.

RECOVERY

Hunker Down

You hunker behind thick walls and catch your breath. All rangers recover one exhaustion.

“This building haunts your dreams. The same recurring nightmare, night after night. What is it?”

THE RANGER STATION

[illustration]

DEFENSE

Coordinated Defense

The comms equipment lets you direct the defense. As an action, pick two locations or manned obstacles. The next defense roll at each is made with an extra die.

RECOVERY

Triage

The station’s medical supplies patch everyone up. All rangers recover one injury level.

“Your favorite shifts are those in the station’s radio room. You’re always listening, hoping and waiting to hear about something. What is it?”

THE RESEARCH CENTER

[illustration]

DEFENSE

Historical Archives

The archives hold knowledge about this land and its threats. As an action, allow a ranger who just acted to re-roll any failed die.

RECOVERY

Survey Data

You study old maps and discover a forgotten path. Gain one hidden trail token. Spend to create a trail connection between any two locations for the rest of the wave.

“When you have a free moment, you always find yourself coming back here and picking up one particular book or document. What is it and what does it mean to you?”

THE ARMORY

[illustration]

DEFENSE

Jury Rigged Fortification

Spare parts and ingenuity go a long way. As an action, place a fortification on an adjacent road segment not controlled by the wave.

RECOVERY

Quick Repairs

Everything you need to patch things up is right here. Restore 2 obstacles instead of 1.

“Being in the armory always makes you think about that person who first taught you how to shoot. Who was it, and what did they mean to you?”
